COLONIAL
CUT GLASS

CATALOG 41

THE PHOENIX GLASS COMPANY

RESPECTIVE of the ever changing cycle in fixture design cut glass and the colonial fixture has always held a permanent place.

Dignified and artistic for formal entrance lobbies yet for lighting the home it brings to mind the colonial days with their simple but effective decorative treatments.

This period of design is purely American and its inception dates back to the days of the old oil lamp and tallow candle. Later adaptations introduced with the electric lamp have added to its popularity.

Since the new inside frosted lamp lends itself so admirably to the use of colonial cut glass there will be an ever larger demand for fixtures of this period.

Clear Crystal Cut

The design is engraved in clear glass and is referred to either as Clear Cut or Clear Crystal Cut.

Roughed Outside and Cut

The design is cut through a sand blasted surface and is commonly referred to as R.O. and Cut.

Certain cut designs are available either in Clear Crystal Cut or Roughed Outside and Cut. Separate C numbers have been assigned.
